

## Namaste!

*Our experience as an interns' in Narayansthan, Baglung (August 6<sup>th</sup> – 25<sup>th</sup>, 2017)*

We are four girls from Austria, between 22 and 26 years and we study Social Pedagogy. Due to our study we spent three weeks in Narayansthan, Baglung to do our internship service. Two by two we visited the Shree Aadharbhoot Basic School and the Shree Janata Secondary School.

We spent a great and unforgettable time there by:

- Teaching English and German language skills
- Talking about the differences between Austria and Nepal
- Playing games, singing and dancing
- Supporting kids and teachers with their daily routine

All of them have been very open-minded, helpful and friendly, so we felt really comfortable. Moreover, it was very interesting by getting in touch with the culture and lifestyle of Nepal. We're glad that we did our internship with SWAN Nepal, because everything worked pretty well.

We enjoyed our stay a lot and can definitely recommend an experience like this to other interested students and interns. Some day we will come back!

- Sophie, Julia, Beate and Klara
